

Crypta Investor Update Q2 2026

HIGHLIGHTS:

- Development is entering the User Acceptance Testing (UAT) phase which will run in parallel with any remaining UI/UX optimization
- Crypta has engaged Certik, the world's largest blockchain security company, securing over US\$470b in assets, to complete the independent smart contract security audit
- Costa Rican licensing process is underway
- Discussions with various gaming providers have progressed well with contracts & due diligence to be finalized upon receiving licensing approval
- Overall development & licensing is tracking behind the initial targeted timeline but well under budget
- Cash and cash equivalents of ~US\$172,000 as of 30 June 2026

Crypta Holdings Inc. ("**Crypta**" or the "**Company**") provides the following investor update for Q2 2026. During the quarter, the Company continued to advance the development, licensing and commercial preparation of the Crypta platform. Development is now progressing into the User Acceptance Testing (UAT) and smart contract auditing phase, representing an important milestone ahead of the platform's planned launch.

Development and Security Audit

Testing will cover the platform's end-to-end functionality, including wallet connectivity, deposits and withdrawals, trading, liquidations and risk management, admin panel functions and on-chain settlement.

UAT will run in parallel with continued UI/UX optimisation to improve the platform's usability and overall user experience.

Crypta has engaged Certified Kernel Tech LLC ("**Certik**") to complete an independent security audit of Crypta's Solana smart contracts. Certik is the world's largest blockchain security company, having completed over 6,180 smart contract audits and securing US\$477+ billion worth of assets as of 2025.

The audit is expected to take approximately three to four weeks, with any identified issues to be addressed and signed off on by Certik before launch.

Licensing and Gaming Provider Partnerships

Costa Rican data processing license and registration as an online gambling company for the operating entity is underway. This process is being supported by Standard Corporate Partner SP. Z O.O. (Legal Bison).

Crypta has also progressed discussions with a number of established gaming providers regarding the integration of top tier licensed slots and live casino content (Pragmatic, Hacksaw, Evolution, etc.). Contracts and final due diligence are expected to be finalised shortly after licensing approval.

Crypta is designed to combine benefits that operators have generally failed to offer together: non-custodial on-chain infrastructure and access to licensed gaming content.

Overall development and licensing is tracking behind initial targets but well under budget.

Authorised on behalf of the Company.

Trinity Cooper
Managing Director
Crypta Holdings Inc.
